# Wireless Consultancy

## DATA SHEET

DigitalAir Wireless Networks offers a comprehensive range of wireless consultancy and support services, giving you the option to request a specific wireless skill or, more commonly, take a fully integrated DigitalAir turnkey wireless solution.

We can help you in defining your wireless strategy, choosing appropriate technologies, procurement, custom configuration, project management and installation. Once implemented we can provide a range of wireless support services to ensure long-term cost-effective performance of your wireless network.

We also offer specialist skills in the areas of wireless security ensuring that the security your wireless network meets your business needs.
